

'Une petite êkole duve d'grans ambisions'

A little school with big ambition

Quote of the Week

"Try to be a rainbow in someone's cloud." - Maya Angelou

News from Sark School - 27/06/2025

How lovely it is to see the sunshine! It really feels like Summer has arrived. We enjoyed entertaining many of you at our Summer Fair last Friday. This is such a lovely event as it is led and run by the school council with staff supporting. A grand total of around £250 was raised. This will go towards school funds to help support outings.

Sark had its first colour run on Sunday and it was a great event with lots of laughter and fun had by all. The adults and children who took part embraced the craziness that an obstacle course and coloured powder combined will cause. These events do not just happen and an awful lot of work went into making this the colourful spectacle it was. A massive thank you goes to Sark school's incredible FOSS who work tirelessly to support school residentials and events.

Friday sees the school head over to Guernsey again to enjoy our sailing day. We will all be sailing on the pond in the morning. After lunch class 1 will be heading off to take Le Petit Train around town while class 2 and 3 head out on the sea. We really enjoy our trips to Guernsey and it is thanks to Sark Yatch Club that this is able to happen.

Next week sees our Evening of Entertainment, something a little different this year! We will be putting the stage up on Wednesday evening and it would be great if we could get some help. Please let Gemma know if you are free to help around 5pm.

Looking forward to seeing you all soon,

Best wishes,

Michelle Brady

Around the classrooms - A weekly round up of what we've been getting up to

Class 1

We have had a lovely couple of weeks embracing our new topic of Summer. It has been exciting to have our sandpit filled with sand and this has been made possible by the fundraising event being held on 6th July at Le Grand DixCart. This meant that we could role play a day out at the beach and discuss all the things we need to pack. Our new book Izzy Gismo has resulted in an Invention Station in the classroom with lots of bits and bobs to create with. The children are really enjoying the book and have enjoyed retelling the story so far and labelling different objects.

Construction is always a great hit in Class 1 and helps those little fingers develop and strengthen. This helps with all fine motor control including handwriting.

We are enjoying putting together all our sections of the Evening of Entertainment which will be happening next Friday. Please keep an eye on Class Dojo for information.

Class 2

As we reach the middle of a final fun-packed summer term, I am super proud of Class 2's dedication to their studies and ability to juggle all of their other responsibilities and experiences at school, such as lines to learn, multiple trips around Sark and Guernsey, and welcome visitors into the school. They've proved themselves to be well organised, polite and up for new challenges. In Maths, Year 2 have moved on to all things Statistics while Year 4 deepen their understanding of Time, both topics proving to be practical and interesting for all involved. Through our class reader, *Rosie Revere, Engineer*, we are getting to know our main character Rosie really well. The children are creating imaginative posters and writing kind letters of advice to boost her confidence in her engineering abilities to help her learn from her mistakes, believe in herself and be resilient...all things Class 2 are so brilliant at! In Science we have been using ice and clingfilm to demonstrate how greenhouse gases can affect our wonderful home planet earth and what we can do to make positive, green change. We are super excited to show you all our Peter Pan sketch and song, Sark sketch with Class 1 and surprise Class 2 poem next week, see you all there for some musical magic!

Class 3

This week Class 3 has been investigating plate tectonics and volcanic eruptions. We discovered how the Earth was structured like a boiled egg, with a shell-like crust, an albumen-like mantle and a yolk-like core- albeit one of spinning plasma iron that also causes Earth's magical magnetic field. We also made our own volcanoes and had fun watching the lava ooze out, nearly onto the classroom floor (sorry Mrs Turner Cross). We were all shook up by earthquakes, couldn't help falling in lava, realised it was now or tremor and realised we had a burning love for plate tectonics. In English, we are continuing to revise our Gothic horror stories, and of course rehearsing for the forthcoming Night of Entertainment™. We are looking forward to you seeing how creative and well-rehearsed they are, they have worked so hard. There is a little 80's theme to one of our numbers- so if you have any 80's style accessories you can find (ties, braces, deely-boppers, head or wrist bands, a long jacket, denim- or simply just sunglasses) they will be a welcome addition to this. We look forward to seeing you next Friday!

A few dates
Friday 27th June Sailing in Guernsey, whole school
Wednesday 2nd July Swimming at Beau Sejour Reception-Year 7
Friday 4th July Whole School Performance Evening
Sunday 6th July- Wednesday 9th July Class 3 PGL trip
Monday 7th July-Tuesday 8th July Class 1 and 2 activity days and camp
Monday 21st July Mile Race, Sports Day and Presentation Evening
Tuesday 22nd July School Year finishes midday
